PROFESSIONAL SUMMARY

Senior Qlik Solutions Architect and Business Intelligence leader with **10+ years** delivering enterprise analytics across QlikView, Qlik Sense Enterprise, and Qlik Cloud. Lead architect of **8 enterprise SaaS products** at Wowizer.ai, managing a cross-functional team of 5 engineers from roadmap through production. Deep expertise in **Qlik Cloud migration, data governance, access control, stakeholder management**, and REST API integration. Actively building AI-augmented analytics — RAG pipelines, LLM integration (Azure OpenAI, GPT-4.1, Claude API), OCR/KYC automation, and conversational BI bots. **5-time Qlik award recipient**, Udemy instructor to 875+ learners, trainer to 20+ on-payroll developers.

EXPERIENCE

Solutions Architect & R&D Lead

Oct 2022 – Present

Predoole Analytics (Wowizer.ai | KADAC.ai) — Mumbai

- Lead and mentor **Team Wowizer (5 engineers)** — architecture, Qlik Cloud & Enterprise API guidance, stakeholder management and delivery oversight across all product lines
- Designed and architected **8 enterprise SaaS products** on the full Qlik stack (QlikView, Sense Enterprise, Qlik Cloud) — from product roadmap through production deployment
- Drove **30% operational cost reduction** through REST API integration and process automation across client environments
- Trained and mentored **20+ on-payroll developers** in Qlik Sense Enterprise & Cloud (2023–2024); cohort now delivers independently
- Building **OCR-powered KYC vendor enrollment** at KADAC.ai — PAN/Aadhaar extraction, data governance & compliance validation, vendor access control pre-onboarding (Apr 2026–present)
- Developed **VAPT Security Dashboard** — unified SCA (OWASP Dependency Check), DAST (OWASP ZAP), SAST (Semgrep) into a single Windows-native security governance platform (2026)
- Built **Wowizer Alerts Bot** — conversational BI on Qlik’s Associative Engine via MS Teams & WhatsApp; plain-English queries return chart-level KPI answers in real time

Qlik Sense Developer

Oct 2020 – Oct 2022

Medly Pharmacy — Pune

- Pioneered **Python-to-Qlik live REST API integration** — real-time data visualization and chart generation without full dataset reload
- Built **10+ compliance dashboards** (URAC, NPS, General Compliance Audit, DNA Applications) — stakeholder-ready BI reporting
- Implemented **NPrinting automation** for 20+ scheduled report delivery workflows, eliminating manual distribution

Qlik Extension & App Developer

Nov 2016 – Sep 2020

Clay Logix Pvt. Ltd. — Mumbai

- Primary Qlik developer for **Mahindra & Mahindra**; delivered GeoAnalytics and data visualization solutions for **Accenture**
- Built **14+ custom Qlik Sense extensions** — open-sourced on GitHub, adopted globally (Variable Button, Popup Chart, Side Filter, Date Range Picker, Sheet Level Access and more)
- Built deep expertise in **enigma.js, Qlik Engine API, QRS API, Section Access**, and REST API integration

Freelance Web Developer

2014 – 2016

PHP · JavaScript · MySQL — Mumbai

- Delivered client web projects across PHP backends, JavaScript front-ends, REST API integrations, and MySQL / SQL data layers

KEY PRODUCTS ARCHITECTED — WOWIZER.AI

QV2QC Extended

QlikView → Qlik Cloud migration wizard — tasks, users, spaces, load scripts; single .exe with dry-run pre-flight validation

Cloud Migration Accelerator

Full Qlik Sense Enterprise → Qlik Cloud migration: users, apps, connections, task chains, Section Access converter, multi-tenant, audit trail

Qlik → Lakehouse Converter

AI-powered (GPT-4.1, Azure OpenAI) load script to Microsoft Fabric / Snowflake / Databricks pipeline & medallion architecture generator

Qlik → Power BI Accelerator

5-phase migration framework cutting 60–70% effort per module — automated DAX conversion, RLS, workspace setup, KPI mapping

Cloud QMC

Multi-tenant Qlik Cloud management console — task chain automation, QVF backup/restore, cross-environment app movement, audit reports

Writeback Extension

Inline data editing from Qlik dashboards; PostgreSQL write-back, Session Access row-level security, approval workflow, auto-reload

Data Access Auditor

Enterprise data governance & access control — audits QMC security rules and Section Access for compliance readiness before go-live

Compare & Validator

DEV → TEST → PROD validation engine — data model, row count, KPI, chart & expression-level diff with Excel compliance audit export
