EMPLOYMENT HISTORY

Senior Qlik Sense Developer and Product Lead — Predoole Analytics / Wowizer.ai / KADAC.ai

Mumbai | Oct 2022 – Present

Solutions Architect and R&D lead for a suite of 10 enterprise Qlik products serving Qlik Cloud and Qlik Enterprise customers worldwide.

- **Lead** Team Wowizer (5 engineers) — own architecture, Qlik Cloud/Enterprise API strategy, and end-to-end delivery
- **Trained** 20+ on-payroll Predoole developers in Qlik Sense Enterprise & Cloud (2023–2024), now independently productive
- **Reduced** operational costs 30% through process automation
- **Cover** full migration spectrum: QlikView → Qlik Sense Enterprise → Qlik Cloud
- **Began guiding** the KADAC team on AI-powered finance product work (2026)

Key products architected & delivered:

- Cloud Migration Accelerator (CMA, v3.2) — automated Qlik Enterprise → Qlik Cloud migration (users, apps, data connections, task chains) with backup, UAT, audit trail
- Cloud QMC — multi-tenant Qlik Cloud administration: task-chain automation, backup/restore, audit reporting
- Data Access Auditor — access governance auditing QMC security rules and Section Access before production
- QV2QC Extended — QlikView → Qlik Cloud operational-layer migration via 8-step wizard + CLI (Python)
- Qlik Sense → Power BI Migration Accelerator — AI-assisted conversion (Qlik Fx → DAX), 60–70% effort reduction
- Qlik Script → Lakehouse Converter — AI platform converting Qlik load scripts to Microsoft Fabric / Snowflake / Databricks via Azure OpenAI; medallion architecture (Spark SQL, Delta)
- Compare & Validator — forensic DEV→TEST→PROD comparison engine using native Qlik APIs
- Writeback Extension — in-dashboard data editing to PostgreSQL with Session Access, approval workflows, audit log
- Wowizer Alerts Bot (Teams + WhatsApp) — conversational analytics on the Qlik Associative Engine (NLP)
- AI-Powered Command Center (TPM) — real-time multi-tenant alert monitoring with severity classification

Qlik Sense Developer — Medly Pharmacy

Pune | Oct 2020 – Oct 2022

Built dashboards, mashups, and NPrinting automation for pharmacy operations and compliance.

- Built 10+ dashboards/mashups: Demographics, Compliance Audit, URAC, DNA Apps, Delighted (NPS), QRE
- Pioneered Python-to-Qlik live data integration with on-the-fly chart generation (no full dataset load)

- Implemented NPrinting automation across 20+ report workflows for business users
- Built compliance reporting: Coupon Opportunities, Underpaid Medication Claims, Repeatedly Prescribed Medications, 50-Mile Zip Coverage
- QMC operations: app publishing, security rules, user management, virtual proxy setup; custom Qlik themes

Qlik Sense Developer — Clay Logix Pvt. Ltd.

Mumbai | Nov 2016 – Sep 2020

Qlik extension/mashup developer and client delivery lead.

- Primary Qlik developer for Mahindra & Mahindra; delivered GeoAnalytics for Accenture; POC/plugin support for Burger King and Oberoi Hotel
- Built 14+ production Qlik Sense extensions, public on GitHub: Variable Button, Popup Chart, Trigger, Side Filter, KPI Objects, Export Button, Qlik Sense Styler, Custom Filter Pane
- Conducted internal team training on Extension, Widget, and Mashup development with API

Web Developer — Freelance / ARC Tutorial

2014 – 2016

- Web development with PHP, JavaScript, Core Java, MySQL; created online tutorial content

AI / GEN AI PROJECTS

- RAG Pipeline — built retrieval-augmented generation pipeline (chunking → embeddings → vector store → grounded LLM responses); formally certified (Edureka, 2026)
- Qlik Script → Lakehouse Converter — production LLM integration via OpenRouter routing across Claude and GPT models
- KADAC Vendor Enrollment — OCR document intelligence extracting structured data from ID cards (2026)
- Conversational AI Bots — Teams and WhatsApp bots on the Qlik Associative Engine with Insight Advisor NLP
